Rover is the tool that will cross boundaries of "immobile" classrooms, enabling educators to provide a modern and effective arena for learning. The A3 size tablet can swing 360 degrees around the chair for left or right hand users and a handy slot for tablets and/or mobile phones. The larger heavy duty square base accommodates larger student bags and offers two drink holders.

This versatile furniture is suitable for both indoor and outdoor usage. Made of polypropylene resin, it is highly resistant to high impact and harsh weather making it perfect for anywhere. The material also allows for easy cleaning which makes it suitable for venues like cafes, restaurants and rest areas. The Muze will surely make a statement in any contemporary setting, at the same time ensuring comfort, style and practicality.

Fila is a multi-purpose chair suited for schools & universities and event seating. It is ideal for setting up large numbers of seats and quickly storing them away after events. Unique to Fila are its ready-link legs which makes connecting the chair a simple and swift process. You can stack up to 10 Fila chairs high with stability. Once stacked, a trolley can be fitted to lift and transport stacked chairs away for storage.

Ready link legs

Unique Ready-Link legs making neatly aligned rows a simple, swift process. Legs interlock without tools or brackets.
