BOSS30

The Boss30 is an in-stock, pinnable 30mm slimline screen system with a sleek low profile to create a clean open plan to work spaces.

As a contemporary partition solution the Boss30 range can be applied in various configurations to suit any floor plan.

Cable baskets and retro-fit in desk power/data solutions are utilized to neatly organize power and data.

Select from the in-stock charcoal fabric or customize your fabric selection with our team of furniture specialists.

BOSS30 WORKSTATION LAYOUT OPTIONS

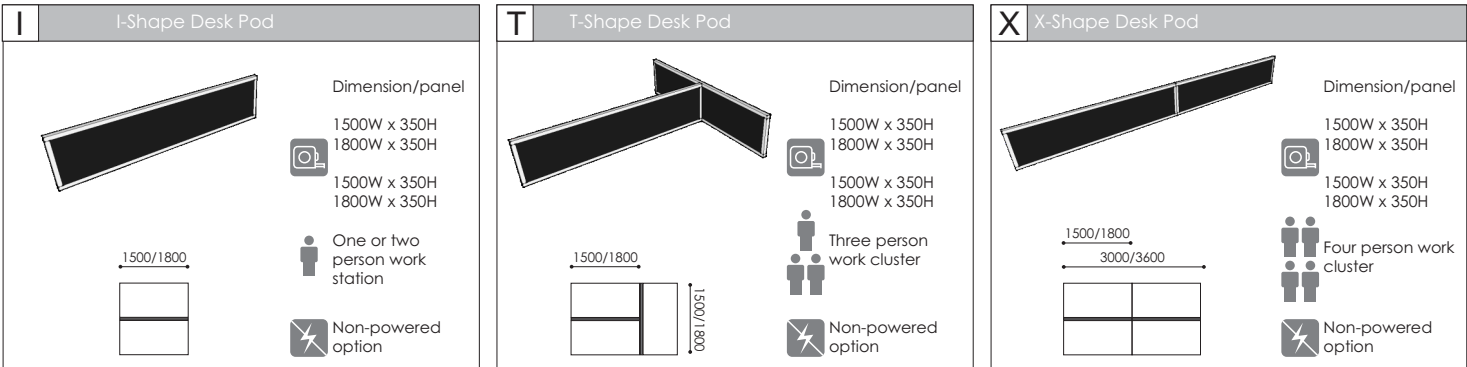

Workstations are L shape work surfaces with a corner radius. This option is for workers requiring a larger surface area, where the user faces the corner for optimum use of the available space.

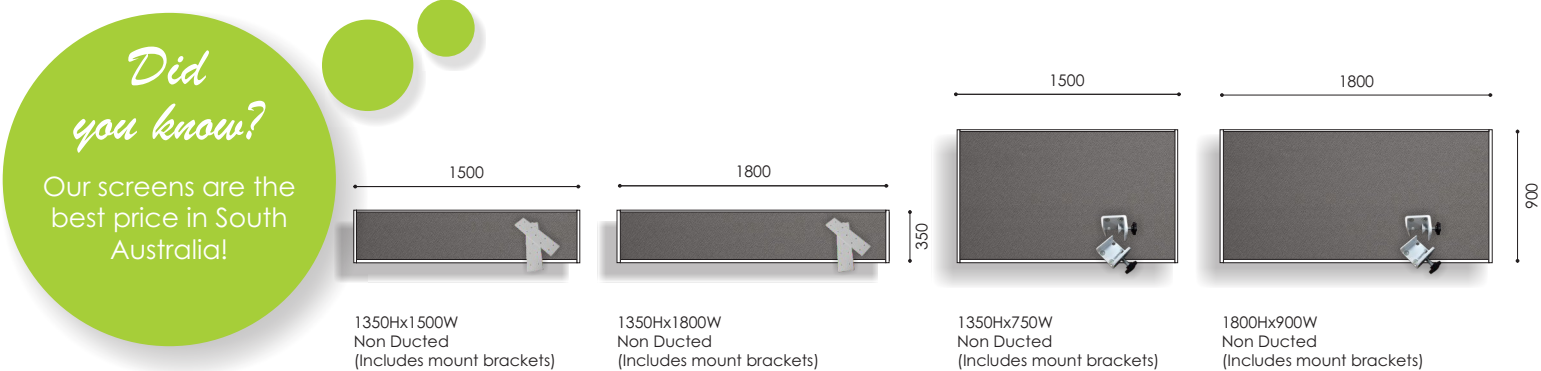

Did you know?
We stock our partitions at Mile End for quick delivery and install.

BOSS30 STRAIGHT DESK LAYOUT

Straight desk layouts are popular where floor space is limited. More staff can fit per square metre with straight desks than alternatives. With a rise in digital, cloud based work and less paperwork, this option has become more desirable over time.

BOSS30 INDIVIDUAL SCREEN PANEL DIMENSIONS

BOSS ACCESSORIES

Workstations are L shape work surfaces with a corner radius. This option is for workers requiring a larger surface area, where the user faces the corner for optimum use of the available space.

BOSS POWER & DATA ACCESSORIES

Workstations are L shape work surfaces with a corner radius. This option is for workers requiring a larger surface area, where the user faces the corner for optimum use of the available space.

BOSS UNDER DESK POWER SOLUTIONS

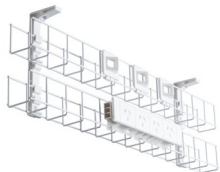

Sw18 Quad Rotated Power

QUAD is stylish slim and sleek which has been designed to complement everywhere from the basic office fit-out to the modern office environment. This useful power board has the left and right outlets at a 90 degree angle for differing size and shape power sockets.

Db18 Data Bezels

A single, 45° data socket. These units are housing only and will require a third party for data wiring installation.

Grid Cable Baskets

These cable baskets are available in single and dual tier in varying lengths based on desk width. Dual tier baskets required for power/data segregation.

Soft Wiring

Soft wiring is a simple, effective, plug-and-play installation method that saves time, increases safety and allows rewiring. The pre-terminated cables and matching sockets snap simply together to ensure a flexible, fast and secure fit-out.

BOSS ABOVE & IN-DESK POWER SOLUTIONS

Athena Power Rail

2, 3 or 4 power socket with dual, triple or quad data in a cost effective, slimline above desk power rail.

Premier

A popular robust power rail with 2, 3 or 4 power sockets with dual, triple or quad power.

Konexus

Module boasts a lower install profile of 76.5mm making it ideal for soft seating, collaborative spaces, hot-desks and workstations with requirements for Power, USB Charging/Pass-through, Data and HDMI.

Alpha

Alpha Series below-desk unit discretely incorporates power and data into any below-desk cable tray. The modular housing allows clients to specify their requirements of power and data services into a single in-line solution.

Pop-up

CMS Pop-Up is an In-desk module that provides quick and practical access to Power and/or USB. The intuitive design combines the practical accessibility of an on-desk rail, whilst maintaining the clutter-free design of a recessed module.

Centra In-desk

CMS Centra Series in-desk module effectively incorporates Power, Fast-Charge USB/Transfer, Data and AV into any flat desktop or vertical surface.
