SPECIFICATIONS

- A Polyester Mesh**
Provides elastic support, yet allowing ventilation for comfort.
- B Backrest**
Height adjustable backrest is upholstered by moulded polyurethane foam on plastic shell.
- C Armrest**
Comes with 4-way adjustable armrest for height, width, depth and swivel angle. Armrest in black, of moulded polyurethane with steel insert.
The fixed armrest made by black polypropylene (100% recyclable)

- D Seat**
Seat consists of moulded polyurethane foam on a 2-piece shell structure, injection moulded in black polypropylene. Seat depth is adjustable by build-in sliding seat, and lever controlled. Seat height is adjustable for 120mm by means of a pneumatic gas spring.
- E Mechanism**
Seat pan angle and backrest tilt adjustment provides any backrest tilt position. Also has pneumatic seat height control.

- F Base**
640mm Five-prong base of injection moulded polypropylene plastic. 50mm dual-wheel castors of moulded polyamide (nylon).

Seat pan horizontal adjustment is 50mm

ORIGIN

Origin is a durable and ergonomic office chair that is an ideal seating solution for users with restricted budgets yet still demand high quality construction and ergonomic design. These adjustable chairs are cushioned and moulded to ensure comfort over long periods at your desk. Some options feature breathable backs allowing air flow to keep you ventilated. A generous seat and a full contoured back provide all day comfort.
