T2 is ergonomics for the executive. A stylish chair that is packed with features and manufactured to the highest specification by using the premium materials and components from around the globe. Quality that can be seen and experienced, T2 features a polished aluminium base supporting an Italian Donati Synchro mechanism and KGS class 3 gas strut. While Gabriel fabric wrap high density foam and Donati 4D armrests complete one of our favourite ergonmic solutions for the modern workspace. T2 is certified with a BIFMA 136kg weight test certificate.
